

Ace Concierge Assists With Work/Life Balance

Ace Concierge aims to simplify your life by creating more time in your day. We complete your TO DO list for you, enabling you to focus on what is important, rather than on what needs to be done.

Manchester, NH (PRWEB) January 13, 2006 -- Ace Concierge, LLC assists in generating more time and personal autonomy by completing essential everyday tasks and responsibilities for the business and residential community. By helping to maintain a healthy balance between work and home, Ace Concierge allows the client to focus on what is important, rather than on what needs to be done.

In today's ever changing society, the need for quality time with family and friends has grown to be more of a priority, rather than a pastime. Time is a precious commodity that ACE Concierge gives back to the client, thereby reducing stress and the need to struggle with lists of responsibilities. Errand services fulfill a need in people's lives by allowing them to fully commit their focus on the task at hand, whether it is career or home life, without sacrificing the needs of their family.

For the corporate community, several studies have discovered that many workers are spending more and more time on the job, are taking work home, and are utilizing several hours of company time for personal business. Many firms have now implemented employee assistance programs (EAP), in order to retain and maintain these quality employees who require additional time and support. According to one survey, employees are more happy and positive on the job due to EAPs, there is a reduction in absenteeism, and an increase in productivity. Concierge and errand services have become an integral part of these work/life benefits programs for several corporations across the country.

Ace Concierge provides a wide range of support services (personal assistant, gift purchases, grocery shopping, house sitting, meal delivery, courier service...etc) to enable the clients to save themselves time, reduce stress, enjoy the company of family and friends, and lessen the demanding struggles of balancing career and home life.
